INTRODUCTION

The Judiciary's Automated Traffic System (ATS) is the statewide computer system utilized by all municipal courts in the state of New Jersey. ATS is the database for all traffic tickets filed in the New Jersey municipal courts.

ATS automates case management and financial procedures while facilitating the direct electronic exchange of information between the Motor Vehicle Commission (MVC) and the municipal courts. It is also available to all law enforcement agencies throughout the state of New Jersey.

ATS also serves as a management resource to standardize and automate the operations of the municipal courts while preserving local control over each court's data. The system is accessed by the municipal courts through locally operated personal computers connected by a statewide telecommunications network to the New Jersey Administrative Office of the Courts' mainframe computer. The Electronic Access Program provides real time access to municipal court traffic ticket data that is stored in the Judiciary's mainframe.

It is emphasized that the ATS system contains municipal court caseload data and is not the repository of driver history information. Official driver histories are maintained by the Motor Vehicle Commission (MVC).

OVERVIEW OF ATS INQUIRY SYSTEM

The Automated Traffic Inquiry System was designed for non-court users who access the system from remote sites. Users will be able to view information about active and disposed tickets in ATS. The information will include violations, sentences, payments, bail and warrant information when applicable.

A list of ATS Code Tables (Appendix A) is included in this guide for reference. It gives a description of the codes used throughout the guide. For example, in a ticket, the first four digits represent the court code of the municipality the ticket was issued in. A list of all municipalities and their respective court codes is also provided (Appendix B).

If any problems are experienced while using the Electronic Access to Court Records Program, contact the **Office of the Superior Court Clerk's Office's Customer Service at (609)421-6100.**

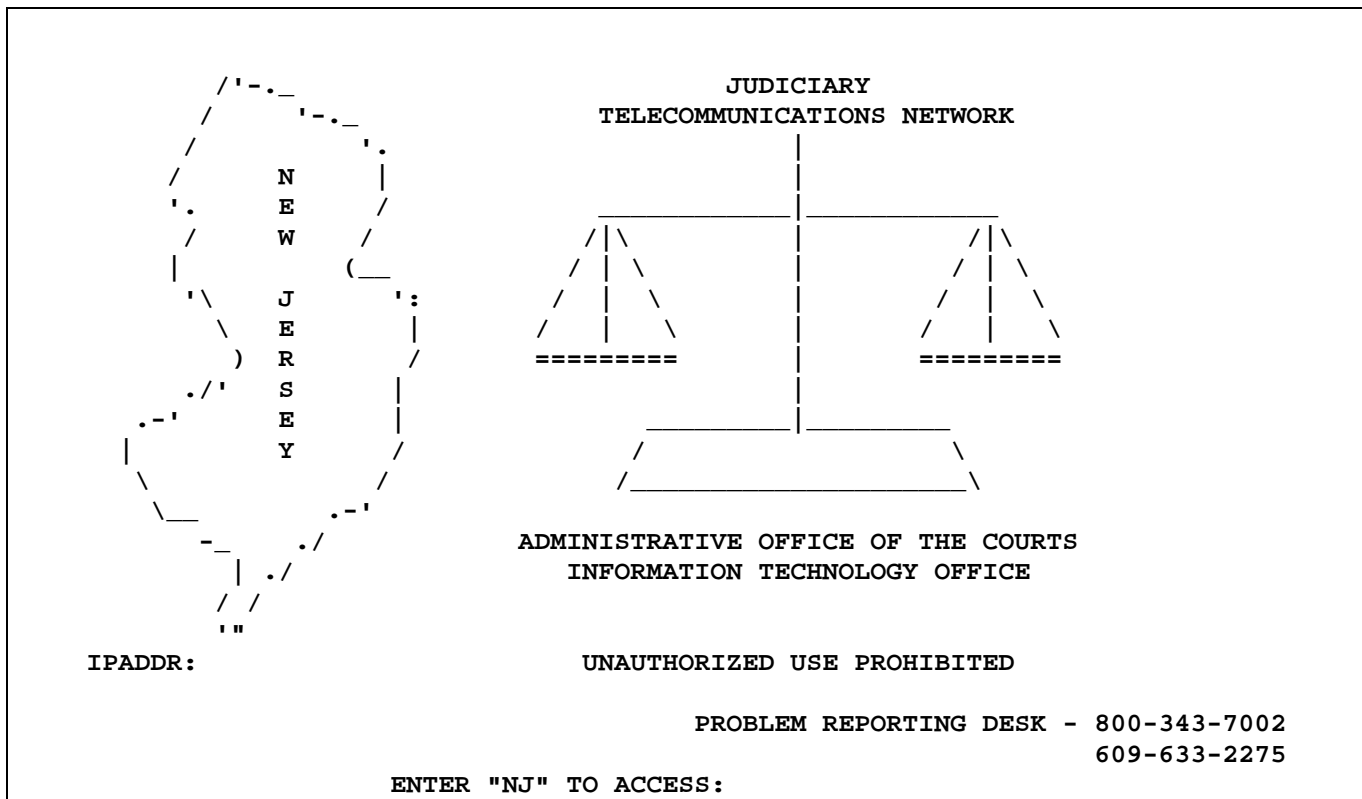

SIGNING ON AND OFF

Refer to the Superior Court of New Jersey Electronic Access Program, Court Records Inquiry System Access Guide for connecting procedures. After making the connection from your personal computer to the judiciary mainframe, the first screen that you may see prior to the log-on screen is a broadcast message.

- 1) Press the **F3** key to continue.

The next screen displayed will be the JUDICIARY TELECOMMUNICATIONS NETWORK screen (Exhibit A).

EXHIBIT A

NOTE: The log on screens contain Help Desk telephone numbers as shown in Exhibit A. These numbers are for New Jersey Court Personnel use only. Non-court users should call the Superior Court of New Jersey Electronic Program at **(609)421-6100**.

- 2) Type **NJ** and press the **ENTER** key.

The next screen is the **INTERSESSION MANAGER** screen (Exhibit B).

PROCEDURES:

- 1) Type in the **USERID** listed on your enrollment form and press the **TAB** key to move the cursor to the next line.
- 2) Type in your **PASSWORD**.
- 3) Press the **ENTER** key.

NOTE:

- o Please **DO NOT** attempt to change your password on the Intersession Manager screen.
- o When an incorrect password may have been entered, please **DO NOT** attempt to correct. Back out of the system and then sign in again.
- o For security reasons, passwords typed on the **PASSWORD** line do not appear on your screen.

FIRST-TIME USERS

If this is the first time that you are signing onto the system with a new USERID, or if this is the first time that you are signing on after your password has been reset, you must change your password as part of the log on process. The PASSWORD is the user's most important link in data security – it prevents unauthorized persons from using your ID.

The P-Synch service should be used to change your password. When changing your password, please refer to:

- The Electronic Access Program webpage
- Connecting to the Courts (Web - VPN)
- Logging in for the first time

USER ID SECURITY

If a user attempts to log on five times and is unsuccessful, the USERID will automatically be revoked. You will receive the message, “USER ACCESS REVOKED BY EXTERNAL SECURITY SYSTEM”. When this happens, call Customer Support (609-421-6100) for assistance. Customer Support will reset the password. Once reset, please refer to the Electronic Access Program webpage - Connecting to the Courts (Web - VPN) - Logging in for the first time.

Passwords will be valid for a period of ninety days, at which time the system will prompt you for a new password. You cannot reuse a password you have previously used. Passwords can also be changed at any time within the 90 day life span.

The next screen is the INTERSESSION MAIN MENU screen (Exhibit C). This screen lists the systems that are available for selection.

NOTE: For New Jersey drivers, an inquiry by driver's license number is the most effective way to locate a defendant's ticket in ATS. This is because every New Jersey driver has a license number which is different from any other driver in the state.

- 3) The case status column indicates whether the ticket is active, on a time payment, disposed, etc.
- 4) To retrieve detailed ticket information on a ticket, type an **X** to the right of the ticket and press the **ENTER** key. The Detailed Ticket Information Menu will appear (Exhibit P).

NOTE: Press the **PF10** key to save the current list and to go to The Detailed Ticket Information Menu. Press the **PA1** key to return to the Traffic Main Menu or the **PA2** key to return to the Ticket Inquiry Menu.
