eCourts Overview

What is eCourts?

Rule 1:32-2A (Effective 9/1/2013) serves to:

- Confirm the Judiciary's intention and authority to develop and implement paperless, electronic court systems;
- Confirm that the data and documents maintained in an approved electronic court system shall have the same force and effect as if in original paper format;
- Provide for the use of electronic signatures in an approved electronic court system.

eCourts Evolution

- The *Supreme Court's Special Committee on Information Technology* submitted a report to the Judiciary in 2009
- The *Advisory Committee on Information Technology* was formed in 2010 to assist the Judiciary with the development of policies, procedures and technical direction

The Advisory committee focused on the following four core business principles:

1. Re-usability
 - Modify Business Practice - simplify and standardize
2. Leveraging existing technologies
 - Seek changes to Rules of Court to maximize technology
3. Advancing the core business of the courts
 - Reduce data entry and focus instead on case management
4. Transparency
 - Greater public access

eCourts Development Approach

Focus on standardization across courts:

- Identify common efilings and case management functions including: document submission, document tracking, attorney notification, electronic file maintenance, motion processing, case initiation, judgment entry, etc.

Include system users in development:

- Include judges, court managers, court staff and attorneys in the process
- Share ideas and a prototype with users as early as possible
- Partner with bar associations to hold seminars where attorneys and staff can provide feedback

eCourts Provides

- Judiciary Electronic Filing
 - Allows for electronic filing of documents to the courts
- Case Management Processing
 - Allows for case processing by court staff and chambers staff
- Document Management
 - Maintains an electronic case jacket (e-filed documents and documents scanned or uploaded by staff)

Availability

- Available 24/7 for filing and Case Jacket access
 - Some documents filed after 8:00 PM will not appear until 2:00 AM the next business day
- If emergency
 - Can follow emergent procedures
 - Orders tolling filing deadlines apply (e.g., due to court closure)

Technical Overview

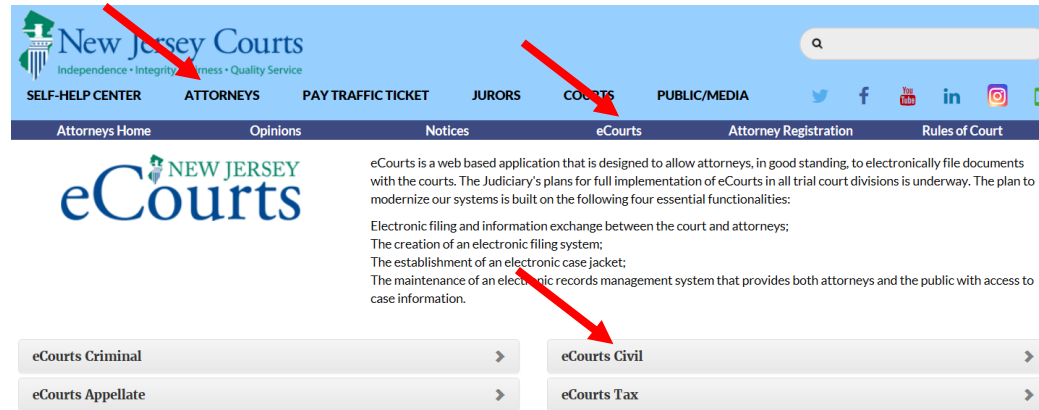

- Internet browser based
 - 30 minute timeout for inactivity
- Documents uploaded as PDF/MS Word
 - Proposed orders uploaded as MS Word
- Currently 7 MB limit per document
 - Anticipate increasing maximum size
 - One filing can contain multiple documents
 - Can split documents if needed
