SEE STATEMENT OF REASONS ATTACHED

Statement of Reasons

This matter comes before the Court upon Plaintiff's Motion to Reinstate his Complaint, which was dismissed without prejudice on February 13, 2020 for failure to comply with several Court Orders requiring proof of product usage. The Court notes that it has considered the moving papers, papers in opposition and reply along with all supporting exhibits.

By way of background, this motion was one of several motions to reinstate that were granted as unopposed in late 2020 in accordance with R. 1:6-2. The Court was recently informed that Defendants, Merck Sharp & Dohme Corp. and Merck & Co., Inc. (hereinafter "Defendant"), having not filed appearances in those cases, did not receive notice of said motions. As such, on May 4, 2021, this Court entered an Order *sua sponte* vacating the Order granting the instant motion to reinstate for the purpose of allowing Defendant to file opposition thereto, which was filed on May 10, 2021.

The crux of Defendant's argument is that Plaintiff's proffered Proof of Use is insufficient and does not comport to this Court's August 23, 2019, February 20, 2020, and April 15, 2021 Proof of Use Orders.

Accordingly, the issue before the Court is whether the documents Plaintiff produced are sufficient Proof of Use.

A) The Proof of Use Orders

a) August 23, 2019 Initial Proof of Use Order

On August 23, 2019, Judge Hyland entered the Initial "Proof of Use" Order in this MCL, requiring plaintiffs to provide "documentary evidence of proof of use of Zostavax ... within 35 days of the date of th[e] Order." See Order dated 8/23/19. Subsequently, at a February 4, 2020 Case Management Conference ("CMC"), Judge Hyland became aware that the August 23, 2019 Order inadvertently did not apply to cases filed after the Order due to the specific language used.¹ To remedy what seemed like an oversight, defense counsel proposed that the next Case Management Order ("CMO") should address this issue and provide that cases filed after the August 23, 2019 Order should similarly provide Proof of Use. At that time, Plaintiffs' counsel had

¹ The August 23, 2019 Order specifically stated, "[t]he remaining Plaintiffs ... shall provide ... counsel with documentary evidence of proof of use" See Order dated 8/23/19.

no objections and agreed to produce such documentary evidence of Proof of Use within thirty (30) days of the Court's next CMO.²

b) Case Management Order No. 8

Following the Court's February 4, 2020 CMC, Judge Hyland entered CMO 8, dated February 20, 2020. CMO 8, ¶ 4, provides the following language regarding Proof of Use:

Within 30 days of the date of this Order, Plaintiffs in all cases filed after August 23, 2019 shall provide liaison counsel for Plaintiffs ... with documentary evidence of proof of use of Zostavax. Any cases filed after the date of this Order shall provide this same information within 30 days after the complaint is filed with the court. Plaintiffs' liaison counsel shall forward the documentary evidence of proof of use to defense liaison counsel within 35 days of the date of this Order and for cases filed after the date of this Order within 35 days of the date the complaint is filed. Proof of use is clarified to include definitive proof the plaintiff received the Zostavax vaccination, such as a medical record confirming the vaccination was provided on the date of that record or a vaccine administration record.

Thereafter, Plaintiffs filed a Motion for Reconsideration, arguing that many Plaintiffs subject to CMO 8 did not have specific vaccination records because Zostavax is widely distributed throughout pharmacies, without a prescription, and retention requirements for pharmacies are not uniform nationwide. Plaintiffs requested that the Court reconsider the definition set forth in CMO 8 to further include additional documentation which may be sufficient in establishing Proof of Use.

c) April 15, 2021 Proof of Use Opinion re: Reconsideration of CMO 8

On April 15, 2021 this Court rendered its "Proof of Use" Order/Opinion" ("hereinafter the "POU Order") denying reconsideration of CMO 8. Consistent with Judge Hyland's prior Orders, the Court's focus was on definitive proof of use that would help the Court objectively determine which Plaintiffs had credible claims; indeed, the Court noted that this is the very purpose of a Lone

² Although the parties agreed that some Proof of Use should be provided to defense counsel as well as to the Court, the parties requested clarification from the Court as to what actually constitutes "Proof of Use". Judge Hyland explained that he "wanted something definite" such as a "vaccination record" or an "indication in the medical records that the vaccine was given on [a] particular day." Plaintiffs did not object to this discussion. See 2/4/20 Tr. 32:3-11.

Pine Order.³ The Court notified counsel that it would not accept a self-serving Affidavit or Certification from a Plaintiff certifying that they received the Zostavax vaccine, finding that same was not “something definite”. In fact, the Court noted that the current definition, in place since CMO 8, requires “corroborative documentation”. In re Zostavax, MCL 629, 4/15/21 Order. While the Court acknowledged certain types of sufficient Proof of Use in its POU Order, it reserved deciding disputes over whether other types of Proof of Use are sufficient to an appropriate time. Ibid.

B) Legal Standard: Reinstating Dismissal Without Prejudice

According to R. 4:23-5(a)(1), a “delinquent party may move on notice for vacation of the dismissal or suppression order [without prejudice] at any time before the entry of an order of dismissal or suppression with prejudice.” R. 4:23- 5(a)(1). The motion shall be supported by an affidavit that recites that the withheld discovery “has been fully and responsively provided.” Ibid. If an order without prejudice is not vacated, the party entitled to discovery may move for an order dismissing the case with prejudice “after the expiration of 60 days from the date of the order.” R. 4:23-5(a)(2).

C) Discussion Re: Plaintiff’s Proof of Use

Plaintiff argues that Defendant has been served with adequate Proof of Use and thus this motion should be granted, and Plaintiff’s case thus reinstated. In opposition, Defendant argues that Plaintiff’s purported proof of use, which Defendant asserts are “self-reports” that he received a vaccine on a specific date with no other details, is not “something definite.” In reply, Plaintiff argues that on April 7, 2020 and May 12, 2021, Plaintiff served Defendant with adequate proof of Zostavax use.

Having reviewed the purported proof of use, the Court is satisfied that Plaintiff has provided sufficient proof of use to warrant reinstatement of his Complaint. First, the Court finds that the medical records initially provided on April 7, 2020 would not, on their own, constitute sufficient proof of use under the POU Order. These medical records indicate that Plaintiff himself reported having received a shingles vaccine. This self-reporting does not provide the “corroborative documentation” that this Court required under the POU Order. In other words, these records amount to the functional equivalent of a self-serving affidavit or certification, as they merely consist of what the Plaintiff told the medical personnel he received.

³ Lore v. Lone Pine Corp., No. L-33606-85, 1986 WL 637507 (N.J. Super. Law Div. Nov. 18, 1986).

However, on May 12, 2021 Plaintiff provided Defendant with a Walgreens immunization record that the Court finds sufficient under the POU Order. The record contains the vaccination date, the “Rx Number,” the store number of the Walgreens vaccination site, as well as a product description which reads “Zostavax INJ (SQ) Single Dose Vial.” The Court finds this record to be precisely the type of “corroborative documentation” required under the POU Order.

D) Conclusion

In light of the foregoing, the Court finds that Plaintiff has produced sufficient Proof of Use. Accordingly, Plaintiff’s Motion is **GRANTED**.
