

SUPREME COURT OF NEW JERSEY

It is ORDERED that the attached revisions to Appendix IX-A (“Considerations in the Use of Child Support Guidelines”), Appendix IX-B (“Use of the Child Support Guidelines – General Information; Line Instructions for the Sole-Parenting Worksheet; Line Instructions for the Shared-Parenting Worksheet”), and Appendix IX-H (“Combined Tax Withholding Tables for Use with the [Child] Support Guidelines”) of the Rules Governing the Courts of the State of New Jersey are adopted effective immediately.

For the Court,

Chief Justice

Dated: June 4, 2013

APPENDIX IX-A

CONSIDERATIONS IN THE USE OF CHILD SUPPORT GUIDELINES (Includes Amendments through those effective June 4, 2013 [April 24, 2012])

1. Philosophy of the Child Support Guidelines

No change.

2. Use of the Child Support Guidelines As a Rebuttable Presumption

No change.

3. Deviating from the Child Support Guidelines

No change.

4. The Income Shares Approach to Sharing Child-Rearing Expenses

b. No change.

c. No change.

d. No change.

e. No change.

f. No change.

g. *Effect of a Child's Age* - Dr. Betson's analysis did not provide estimates on child-

rearing expenditures by children's age groups. The Appendix IX-F awards represent the average cost of raising a child from age zero through 17 years (i.e., the total marginal cost averaged over [more than] 18 years). Studies have shown that expenditures are higher than the average for teen-aged children and lower than the average for preteen children.

- h. *Self-Support Reserve* - The self-support reserve is a factor in calculating a child support award only when one or both of the parents have income at or near the poverty level. The self-support reserve is 105% of the U.S. poverty guideline for one person. It attempts to ensure that the obligor has sufficient income to maintain a basic subsistence level and the incentive to work so that child support can be paid. A child support award is adjusted to reflect the self-support reserve only if its payment would reduce the obligor's net income below the reserve *and* the custodial parent's (or the Parent of the Primary Residence's) net income is greater than 105% of the poverty guideline. The latter condition is necessary to ensure that custodial parents can meet their basic needs so that they can care for the children. As of January 24, 2013 [January 26, 2012], the self-support reserve is \$232.00 [\$226.00] (this amount is 105% of the poverty guideline for one person).

8. Expenses Included in the Child Support Schedules

No change.

9. Expenses That May Be Added to the Basic Child Support Obligation

No change.

10. Adjustments to the Support Obligation

11. Defining Income

No change.

12. Imputing Income to Parents

No change.

13. Adjustments for PAR Time (formerly Visitation Time)

No change.

14. Shared-Parenting Arrangements

- a. No change.
- b. No change.
- c. *Criteria for Determining a Shared-Parenting Award* - The criteria listed below must be met before the shared-parenting worksheet and instructions are used to calculate a shared-parenting award. The existence of these criteria does [do] not make a shared-parenting award presumptive, but permit the calculation of the award so that the court can determine if it is appropriate for a particular family.
 - (1) No change.
 - (2) No change.
- d. No change.
- e. If a shared-parenting award is inappropriate due to the PPR's limited household income, a sole-custody award shall be calculated.

Shared-Parenting Primary Household Net Income Thresholds (2.0 x [2012] 2013 Poverty Guideline)		
Total Persons in Household	Weekly Net Income	Annual Net Income
2	[\$582] <u>\$597</u>	[\$30,260] <u>\$31,020</u>
3	[\$734] <u>\$751</u>	[\$38,180] <u>\$39,060</u>
4	[\$887] <u>\$906</u>	[\$46,100] <u>\$47,100</u>
5	[\$1,039] <u>\$1,060</u>	[\$54,020] <u>\$55,140</u>
6	[\$1,191] <u>\$1,215</u>	[\$61,940] <u>\$63,180</u>
7	[\$1,343] <u>\$1,370</u>	[\$69,860] <u>\$71,220</u>
8	[\$1,496] <u>\$1,524</u>	[\$77,780] <u>\$79,360</u>

- f. *Relative Spending on Children and Shared-Parenting Situations* - For the purpose of the application of these guidelines to shared-parenting situations, there are three broad categories of expenses incurred for children by their parents: [-] fixed, variable and controlled.

[the remainder of (f) remains unchanged]

- g. *Assumptions of the Shared-Parenting Adjustment* - The shared-parenting adjustment assumes that:

(1) No change.

(2) the PAR's fixed expenses are equal to: [2 x PAR's percentage of overnights x PPR's fixed expenses]. The PAR's fixed costs are pro-rated based on the time the child spends in the alternate household. For example, if the PAR['s] spends 30% of overnights with the child, that parent is assumed to incur 60% of the PPR's fixed costs. The PPR's fixed costs remain static (i.e., the full 38% of the basic obligation; they are not reduced for the time the child is not in the household) since that parent must maintain the primary residence for the child at all times. The parents have equal fixed expenses only when time sharing is equal (i.e., fixed expenses are the same when the child spends the same amount of time in both households).

(3) No change.

(4) No change.

h. No change.

i. No change.

j. No change.

15. Split-Parenting Arrangements

No change.

16. Child in the Custody of a Third Party

No change.

17. Adjustments for the Age of the Children

No change.

18. College or Other Post-Secondary Education Expenses

No change.

19. Determining Child Support and Alimony or Spousal Support Simultaneously

No change.

20. Extreme Parental Income Situations

Although these guidelines apply to all actions to establish and modify child support awards, extremely low or high parental income situations make the Appendix IX-F awards inappropriate due to the limitations of the economic data. The guidelines listed below apply to extreme parental income situations.

- a. *Obligors With Net Income Less Than the U.S. Poverty Guideline.* If an obligor's net income, after deducting that persons share of the total support award, is less than 105% of the U.S. poverty guideline for one person (net income of \$232 [\$226] per week as of January 24, 2013 [January 26, 2012] or as published annually in the Federal Register), the court shall carefully review the obligor's income and living expenses to determine the maximum amount of child support that can reasonably be ordered without denying the obligor the means of self-support at a minimum subsistence level. If an obligee's income is less than 105% of the poverty guideline, no self-support reserve adjustment shall be made regardless of the obligor's income. When assessing whether an obligee has sufficient net income to permit the application of the self-support reserve for an obligor, the court may consider the effect of the obligee's share of the child support obligation (note that this amount is not calculated on either worksheet). Thus, at the Court's discretion, the obligor self-support reserve may not be applied if the obligee's net income minus the obligee's child support obligation is less than 105% of the poverty guideline for one person. In all cases, a fixed dollar amount shall be ordered to establish the principle of the parent's support obligation and to provide a basis for an upward modification should the obligor's income increase in the future. In these circumstances, the support award should be between \$5.00 per week and the support amount at \$170 combined net weekly income for the appropriate number of children.
- b. No change.

21. Other Factors that May Require an Adjustment to a Guidelines-Based Award

No change.

22. Stipulated Agreements

Defining Parental Roles	<p>Sole Parenting No change.</p> <p>Shared Parenting - A <i>Parent of Primary Residence</i> (PPR) is a parent who provides a residence for the child for more than 50% of overnights annually or, if sharing is equal, provides the residence for the child while he or she is attending school. The PPR may be either the obligee or obligor depending on the parents' income and amount of time spent with the child. A <i>Parent of Alternate Residence</i> (PAR) is a parent who provides an overnight residence for the child when he or she is not with the PPR. See Appendix IX-A, paragraphs <u>14(b)</u> and <u>14(c)</u>.</p>

COMMENTS ON THE USE OF THE COMBINED TAX TABLES

Appendix IX-H

Limitations of this Table - ... no changes

Withholding Taxes vs. Year-End Tax Obligations - ... no changes

Withholding Allowances - ... no changes

Self-Employed Persons - This table gives the withholding tax for employees who are paid wages for their services. It assumes that the employer is paying a portion of the Social Security and Medicare taxes for the employee (7.65%). To estimate the combined tax for self-employed persons earning no more than \$2,187 per week (\$113,700 per year), multiply gross taxable weekly income by 0.0765 and add the result to the table amount. For persons earning above \$2,187 per week, multiply gross taxable weekly income by .0145 (Medicare), add \$136(FICA max), and add the sum to the table amount. [less than \$110,100 multiply gross taxable income by 0.0765 and add the result to the table amount. For persons earning above \$110,100, multiply gross income by .0145 (Medicare), add \$131 (FICA max), and add the sum to the table amount.] **IMPORTANT:** Although this formula will provide an estimate of self-employment income taxes, a careful review of the most recent personal and business tax returns will provide a more accurate tax figure for self-employed persons. Also, see IRS Pubs 505 and SE and App. IX-B (Determining Income).

Social Security Tax (FICA) - This table gives the correct amount of combined withholding tax only if wages for income tax and Social Security are the same. The Social Security tax withholding rate for wage earners is 0.062 [0.042]. The maximum amount of FICA tax for one year (\$7,049/year or \$136/week) [(\$4,624/year or \$89/week)] is averaged into the table for income ranges above \$113,700 [\$110,100]. Refer to IRS Publication 15 for more information. Note that some forms of income are not subject to FICA and Medicare tax (interest income, rents, dealing in property). These forms of income should be excluded from gross income when estimating a parent's taxes. Also, self-employed persons must pay the full FICA/Medicare tax on 92.35% of their gross income (See IRS Form Schedule SE).

Medicare Tax - This table accounts for Medicare tax and "Additional Medicare Tax." The Medicare tax withholding rate for wage earners is 0.0145 for all incomes. In addition to the 1.45% Medicare tax, there is an Additional Medicare Tax of 0.9% applied to wages in excess of \$200,000. The 0.9% Additional Medicare Tax also applies to self-employed persons (there is no employer share of Additional Medicare Tax). [The Medicare tax withholding rate for wage earners is 0.0145 for all incomes.]

Federal Income Tax - This table includes federal income tax withholding rates as published by the IRS (see Publication 15 (Circular E) Revised February 2013 [15-T, Revised December 2010]). To determine the amount of federal income tax for incomes greater than those shown in this table, refer to these IRS Publications.

New Jersey Income Tax - This table includes tax withholding rates published by the NJ Division of Taxation (see NJ-WT, effective January 2012 [2009]). To determine New Jersey withholding tax for incomes greater than those shown on this table, refer to Publication NJ-WT and New Withholding Rate tables.
