WHEN

Thursday, Feb. 13, 2025
12:30 - 1:30 p.m.

WHERE

Live Virtual Zoom Webinar

In celebration of Black History Month, join the Monmouth Vicinage's celebration of this year's theme: African Americans and Labor. Monmouth University Professor Melissa Ziobro will highlight the Black scientists and engineers at Fort Monmouth, including distinguished mathematical physicist, Walter McAfee Ph.D.

McAfee's work on Project Diana is regarded by many as the beginning of the Space Age. Professor Ziobro was the last command historian of Fort Monmouth from 2004 through 2011. Superior Court Judge Natalie Watson will provide opening remarks.

Registration is not required. This free event is open to the public and is sponsored by the Superior Court of New Jersey, Monmouth Vicinage EEO/AA Advisory Committee and the Vicinage Advisory Committee on Diversity, Inclusion, and Community Engagement.
